Client Meeting:
Date: 24 February 2025

1. Begin Implementation from next week
2. Review SRS doc
   1. We need to start with the problem statement, not the solution statement. Give statistics of mental health in college students.
   2. In the solution part, give journalling as a therapist recommended technique
   3. Submitting for now, client will recommend changes as we go on.
3. Make sure node js and all are ready from server side.
4. From UiUx make sure that the first html part is ready, we can use a no code framework
5. AWS Keys and the API keys for OpenAI ChatGPT are ready
6. We need to have a text chatbot ready first and we can continue with video integration later.
7. Look at Replika, this is what we want to replicate
8. Presented Figma Design
   1. Simple Design
   2. Prioritize performance
